Young, J. F., 249

SUBJECT INDEX TO VOLUME 47

4-aminobiphenyl, maternal-fetal exchange of, 553
Arsine-induced hemolysis, 145
Asbestos-induced TNF-α production, modulation of, 465

BaP metabolism and tobacco smoke, 523

Cadmium
  hepatotoxicity of with mercury and copper, 267
  mobilization and chelating agents, 173
  effects on endothelial glycosaminoglycans, 183
Carbamates, rat medium-term bioassay of, 493
Carbon tetracloride–azathioprine induced liver cirrhosis, 601
Catalase
  inhibition by diesel exhaust particles, 125
  and oxidant-mediated lung injury, 509
Caulerpyrene risk to human cells, 47
Chelating agents and cadmium mobilization, 173
Chlorpyrifos oxon interaction with P-glycoprotein, 395
Copper, cadmium, and mercury hepatotoxicity, 267
Cytochrome P-450 and *m*-xylene inhalation, 135

Developmental effects
  of sarin, 249
  of trichloroacetonitrile, 233
2,4-Dichlorophenoxyacetic acid in soil, percutaneous absorption of, 335
1,2:3,4-Diepoxybutane effects on mouse spermatogenesis, 423
Diesel exhaust particles and catalase inhibition, 125
DNA damage
  from generation of reactive oxygen species by Co(II), 61
  in human lymphocytes, detection of, 409

Endothelial glycosaminoglycans, cadmium and zinc effects on, 183
Enzyme activation of binary and complex mixtures, 443

Generation of reactive oxygen species by Co(II), 61
Glutaraldehyde inactivation by bisulfite, 299

Hemoglobin and arsine reactions, 145
Hepatotoxicity
  of mercury, cadmium, and copper, 267
Hydroquinones
  human exposure to, 31
  nephrotoxicity in rats and mice, 159
L-Isoleucine, toxicity of in rats, 499
Lead in children's blood, 311
Lewisite, subchronic toxicity of in rats, 321
Light catalytically cracked naphtha toxicity in rats, 77

m-Xylene inhalation effects on cytochrome P-450, 135
Mercury, cadmium, and copper hepatotoxicity, 267
Methyl tertiary butyl ether, toxicity of, 453
Methylmercury, chronic exposure to in mink, 285

2-Nitrofluorene, fungal metabolism of, 587

Oysters and phospholipase poisoning in humans, 221

PCDD/F elimination in humans, 363
Perchloroethylene, behavioral effects of, 345
Phospholipase in vinegared oyster and human poisoning, 221
Pulmonary response to silica, 93

Quinolones, new, and effects on mammalian chromosomes, 115

Radon effects on immune system, 535
ras mutations in murine liver tumors, 195

Rat strain
differences, 1
and gender differences in neurobehavioral screening, 567
Reproductive epidemiology in sulfonamide factory workers, 109

Sarin, developmental effects of, 249
Silica, rat pulmonary response to, 93
Sodium methyldithiocarbamate products, immunotoxicity of, 479
Spermatogenesis, effects of 1,2:3,4-diepoxybutane on, 423
Sulfonamide factory workers, reproductive epidemiology in, 109

TCDD
induction of CYP1A and protein, 379
pharmacokinetics in veterans of Operation Ranch Hand, 209
TNF-α production by asbestos, modulation of, 465
Tobacco smoke and BaP metabolism, 523
Trichloroacetonitrile, developmental effects of, 233

Zinc, cadmium, and endothelial glycosaminoglycans, 183
